O₂ Revenue Share Re-signs

Avenir Telecom will pay revenue share, based on 2 options for re-signs:

Option 1 (Default option):

- 35% advance payment for the increased commitment period, added at point of re-sign.
- This includes line rental plus all bolt ons including, for example, additional minutes and BlackBerry.

PLUS

- A monthly payment of 40% of the total monthly spend above line rental, which starts from the new commitment period i.e. month 25 for a contract that was originally signed for 24 months

Option 2:

- 40% Monthly Revenue Share over contract duration, which starts from the new commitment period i.e. month 25 for a contract that was originally signed for 24

O₂ Revenue Share Re-signs - summarised

Customers in the last 12 months of their contracts:

- If your customer has 30 days or less left on their contract they could be re-signed by another dealer, distributor or O2 themselves. The message is clear: don't leave it that late!
- The new contract start date for all re-signs will be the processing date for a further 24 or 36 months, as appropriate.
- Advance revenue share payment will only be made once the existing contract has completed a minimum of 12 months.

Please note that should a customer contact O₂ asking to leave less than 30 days from their contract end date, O₂ will process the request without making an attempt to retain the customer. Therefore, it's very important that you stay in contact with your customers and make sure they're re-signed well before their contract end.

All contracts and POs sent to our Client Services department for all new, upgrade or re-sign MUST identify all the contractual elements applicable so that the correct commission payable is made to include all bolt ons, additional minutes and BlackBerry products.

Advance Revenue Share Payments

All payments will be made based on line rental*.

For a normal 24 month contract, you will already have been paid commission for this period. Commissions due for re-signs will therefore cover the new commitment period secured, i.e beyond this first 24 months. By way of

examples:

1. If you re-sign your customer 12 months into a 24 month contract for a further 24 months, you will be due commission for the period from month 25 to month 36 (an additional 12 months' commission will be due to you).
2. If you re-sign your customer 19 months into a 24 month contract for a further 24 months, you will be due commission for the period from month 25 to month 43 (an additional 19 months' commission will be due to you).

This additional commission can be paid to you in one of two ways:

1. On re-sign, we will pay an advanced revenue share of all the additional commission due based on line rental @ 35% plus 40% monthly on the overspend from the start of the new commitment period i.e. month 25 for a contract that was originally signed for 24 months
2. We will pay 40% revenue share on a monthly basis from the start of the new commitment period i.e. month 25 for a contract that was originally signed for 24 months

The above principles apply to 36 Month Contracts/re-signs*

*All advanced revenue share payments are subject to true up schedules.

Please remember that you only receive revenue share commission if your customer is in contract. It is therefore in your interest to re-sign them when you can.
